

Why Westlaw Classic?

Westlaw® Classic is the industry's most preferred online legal research service.

With Westlaw Classic, you can find the legal information you are looking for quickly and confidently so you can build the strongest argument possible.

Why Westlaw Classic?

Commitment to accuracy.

KeyCite

20 years ago, KeyCite® emerged as the industry's most complete, accurate, up-to-the-minute citation service. You can use it to instantly verify whether a case, statute, regulation, or administrative decision is still good law.

Most Negative Treatment Citation

Save time by having the most important information available immediately. The **Most Negative Treatment Citation** provides critical details about the negative treatment that generated a red or yellow KeyCite flag, right on the face of the document. And our editorial systems ensure the information you are relying on is accurate and up to date.

Graphical KeyCite

Graphical KeyCite® traces a case through the appellate process and puts every reversal, rehearing, reconsideration, or other case proceeding into context.

Graphical KeyCite displays the direct history of a case with each court decision referenced in a box at the appropriate court level (U.S. Supreme Court, State High Court, Intermediate Court, or Trial Court). The connecting arrows clarify the route of the case through the courts.

Inline KeyCite flags

You can choose to have inline KeyCite flags appear within a case or brief to show the most negative treatment within the document. You can even include inline KeyCite flags when delivering (printing or emailing) a case or brief.

Federal Notice of Appeal KeyCite flag

The blue-striped flag indicates when a case has an appeal pending in federal court. KeyCite is the only citator service that provides federal appeals notification. This flag is fully integrated with dockets. A link to the docket appears atop the case for investigation. You can also set up a KeyCite Alert to monitor the case. The blue-striped flag:

- Warns that the case has been appealed to the U.S. Court of Appeals or the U.S. Supreme Court
- Appears in the results list and at the top of a case; also in the History tab and Graphical KeyCite
- Is neutral and won't appear in the Negative Treatment tab
- Is removed when a decision is reached by the reviewing court

The screenshot displays the Westlaw Classic interface for the case **Twigg v. Hawker Beechcraft Corp.**, 10th Circuit, October 13, 2011. The document is titled "III. DISCUSSION" and discusses a retaliation claim. KeyCite flags are visible throughout the text, indicating negative treatment. A red flag is present next to the citation "§ 1981 Retaliation Claim". A yellow flag is present next to the citation "42 U.S.C. § 1981". A blue-striped flag is present next to the citation "42 U.S.C. § 2000e-2(m)". The interface includes a search bar, navigation tabs (Document, Filings, Negative Treatment, History, Citing References, Table of Authorities), and a toolbar with various editing and viewing options.

KeyCite Alert

Easily monitor new information affecting the status of your case, statute, regulation, or administrative decision and stay on top of late-breaking changes. **KeyCite Alert** automatically sends you updates when a document's KeyCite information changes, at whatever frequency you specify.

Tax subsections

Filter KeyCite citing references down to specific **subsections of federal tax statutes and regulations**. This functionality is exclusive to Title 26 of the USCA® and CFR.

Graphical Statutes

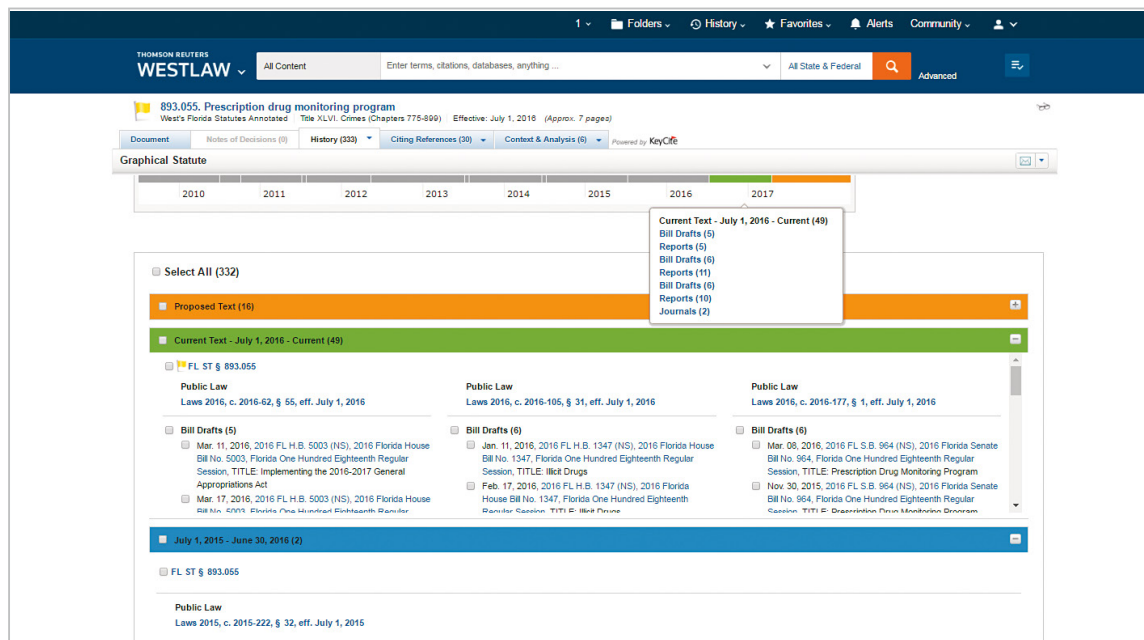

Graphical Statutes® present an easy-to-read, interactive timeline that identifies every change to a statute and links to the documents that contributed to or affected that change.

Graphical Statutes include:

- Enacting and amending public laws and session laws
- Legislative history materials (e.g., bill drafts, reports, journals, and the Congressional Record)
- Cases that negatively impact the statute
- Prior versions of the statute
- Legislation that has been enacted but has not yet been codified

Court corrections

Our **editorial process** ensures that every arriving case is thoroughly checked for accuracy before it's posted to Westlaw Classic. Our attorney-editors work closely with the courts to identify and correct errors ranging from erroneous citations to misspellings to substantive factual and legal inaccuracies.

Many Westlaw Classic resources are designed specifically for litigators, offering relevant content to help you at every step of the litigation process.

Why Westlaw Classic?

Better organized and connected.

Attorney-editor enhancements

Our bar-admitted expert attorney-editors analyze, categorize, and summarize the law and build tools to help researchers understand the law and find on-point materials quickly.

West Key Number System

The West Key Number System® is the de facto classification system for all American law. Thomson Reuters® attorney-editors index cases under more than 400 topics and 100,000

points of law, allowing you to quickly find other cases that address your exact point of law in any jurisdiction. Topic and Key Numbers also help you find cases

stating or applying a legal concept, even if those terms aren't in the opinion.

Thomson Reuters headnotes

We summarize the points of law within a case in a headnote that either lays out the blackletter law or applies the law to the facts of the case – making it easier to review the key issues of an opinion. Each year, we categorize roughly 450,000 headnotes into the Key Number System. We also incorporate legal synonyms, acronyms, generic names, terms of art, and the legal relationship of the parties into head - notes, so your searches can retrieve on-point cases that you may otherwise miss.

Thomson Reuters annotations and indexes

Our comprehensive collection of state and federal annotated statutes and the industry's most comprehensive annotated CFR make the law easier to find and interpret. Our notes of decisions (or "annotations") provide summaries of important cases interpreting a statute, for the full picture of how the courts construe and apply the statute. Searching annotated statutes and regulations will retrieve relevant documents that a text-only search might miss.

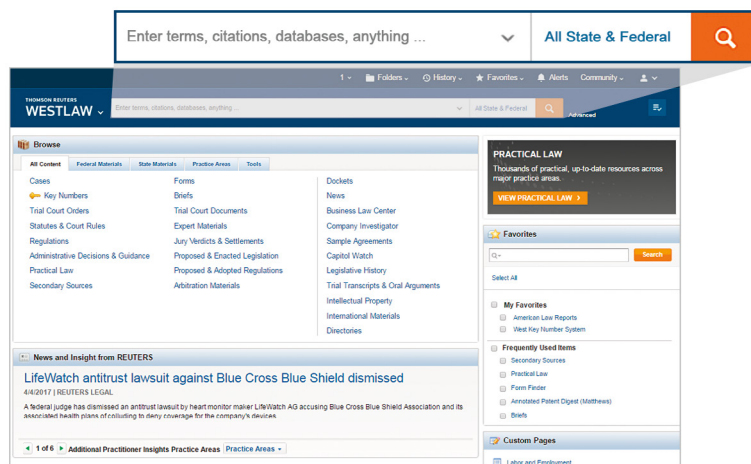

Westlaw Classic is also the only online provider of alphabetical indexes for statutes in all 50 states and the District of Columbia, USCA, and the CFR. With 20 million references categorized by topic, our online indexes provide quick links to the most relevant statutes and regulations – without having to run a search.

Search engine designed for law

WestSearch® was developed in-house by top lawyers, technologists, and scientists who understand the nuances of the law and the important connections that need to be made for meaningful research.

Our editorial excellence is at the heart of WestSearch – tools like the Key Number System, KeyCite, headnotes, notes of decisions, proprietary indexes, and leading publications like American Law Reports (ALR), American Jurisprudence (Am Jur), Corpus Juris Secundum (C.J.S.), and Causes of Action (COA).

WestSearch combines market-leading content with advanced search technology to deliver the best results – including relevant documents that use **phrasing different from your query**. You'll find what you need in minutes, not hours.

The global search box, powered by WestSearch, appears at the top of every page on Westlaw Classic.

Why Westlaw Classic?
